

Curriculum vitae (CV):

Name: Dr. Ravikant Vadlamani

Date of Birth: 31 October, 1963

Present Position and address (since June 2014):

Associate Professor, Department of Geology & Geophysics, *Indian Institute of Technology, Kharagpur-721302*

(e-mail: vrvikant@iitkgp.ernet.in; ravikant.vadlamani@gmail.com)

Permanent Address: 10-31/A, Temple Alwal, Secunderabad-500010, Andhra Pradesh, India (+91-40-2797-1310)

Positions held

1. Associate Professor, Department of Earth Sciences, *Indian Institute of Science Education and Research (IISER) Kolkata, Mohanpur-741252*, July 2010 to June 2014.
2. Assistant Professor, *Indian Institute of Technology, Roorkee-247667*, October 2007-July 2010.
3. Senior Geologist, Geochronology and Isotope Geology Division, *Geological Survey of India (Govt. of India)*, June 1988 to September 2007.

Educational qualifications:

1. *PhD. 2002, National Geophysical Research Institute, Hyderabad.*

On "Structural, metamorphic and geochronological studies of granulites and associated rocks from Schirmacher Oasis, East Antarctica", Thesis Supervisor: Prof K Gopalan.

2. *M.Tech (Applied Geology), Indian Institute of Technology, Kharagpur, 1986-1988 (CGPA 8.71).*

3. *M.Sc. (Applied Geology), Indian Institute of Technology, Bombay, 1984-1986 (CPI 8.86).*

4. *B.Sc. (Hons.), Fergusson College, University of Poona, Pune, 1981-1984 (First Class).*

5. *HSC (12 Standard, Maharashtra Board of High Secondary Education, Pune Division)-1981 (77%)-Loyola Junior College, Poona-411007*

6. *SSC (10 Standard, Maharashtra Board of Secondary Education, Pune Division)-1979 (72%)-Loyola High School, Poona-411007*

Teaching Experience

IISER Kolkata

1. ES1201-Earth System Processes, core course for First Year students
2. ES3102-Mineralogy & Geochemistry, Third Year core course
3. S3202-Igneous and Metamorphic Petrology, Third Year core course and ES3204-Laboratory
4. ES3105-Structural and lithological fieldwork for Third year students
5. ES4201-Precambrian and Phanerozoic Geology, Fourth year core course
6. ES5201-Mountain Building Processes, Fifth year course

IIT Kharagpur

7. GG40002 Geoexploration
8. EX41005 Earth and Planetary Systems
9. GG20003 Paleontology and Stratigraphy
10. GG30002 Stratigraphy

11. GG60015 Isotope Geology and Environment Modeling
12. GG38002 Fieldwork
13. EX38002 Fieldwork

Dissertations Supervised

PhD: 1

1. Saju Varghese - Petrogenesis of gold in the Wynad Gold Field, southern India-
awarded in 2015
2. Chiranjeeb Chatterjee - Constraining magmatic events from the Vinjamuru and Udayagiri domains, Krishna Province, southeastern margin of the Eastern Dharwar craton *to be submitted by June, 2016* (ongoing).
3. Debarchan Powali- Geochemical and geophysical studies of the subcontinental lithospheric mantle of the Indian craton (ongoing).
4. S Sibin. Geochemistry, geochronology and paleomagnetism of the Singhbhum craton dyke swarm (ongoing, IIT Kharagpur)
5. Belormi Chattopadhyay. Geochemistry and geochronology of the Iron Ore Group greenstone succession, Singhbhum craton. (ongoing, IIT Kharagpur)

M Tech: 5

1. Piyali Chanda – Strontium isotopic constraints for the age of Eocene marine mammal horizons of Kutch, Gujarat. (IIT Roorkee, with Prof Sunil Bajpai)
2. Monotrisa Dey – Stratigraphic implications of strontium isotopic data from Cambay Shale, Vastan Lignite Mine, Dist. Surat, Gujarat. (IIT Roorkee, with Prof Sunil Bajpai)
3. Ayan Das – Limitations of Strontium Isotope Stratigraphy: a case study on the marine Late Cretaceous sequences of Peninsular India. (IIT Roorkee, with Prof Sunil Bajpai)
4. Anupam Mandal-Geochemistry and isotopic chemistry of the Kandra igneous complex: implications for active eastern Dharwar cratonic margin tectonics (ongoing, IIT Kharagpur)
5. Debadutta Barik-Geochemistry and geochronology of the Chakradharpur and Arkasani granitoids, Singhbhum Group (ongoing, IIT Kharagpur)

M Sc: 14

1. Prashant Kumar Dubey 2008. Geochemistry of hot spring waters. (IIT Roorkee, with Prof GJ Chakrapani)
2. Arahana Rohan David John 2009. Preliminary $^{87}\text{Sr}/^{86}\text{Sr}$ analysis of selected fossil taxa from the Tertiary of Gujarat. (IIT Roorkee, with Prof Sunil Bajpai)
3. Chiranjeeb Chatterjee 2011. Geochemistry of metavolcanic rocks around Vinjamuru, Nellore district, Andhra Pradesh. (IISER Kolkata)
4. Shakil Hashmi 2012. Geochemistry and petrogenesis of porphyritic granite from the SE margin of the Eastern Dharwar Craton. (IISER Kolkata)
5. Mayank Gupta 2012. Geochemistry and petrogenesis of mafic and ultramafic rocks around Kandra, Nellore district, Andhra Pradesh. (IISER Kolkata)
6. Anvesh Reddy 2013. Geochemistry and petrogenesis of mafic and ultramafic rocks of the Singhbhum craton, East Singhbhum district, Jharkhand. (IISER Kolkata)
7. Om Prakash Kaptan 2014. Polycyclic Precambrian-aged metamorphism in the rocks of the Krishna Province, SE margin of the Eastern Dharwar craton (co-supervised with Prof Somnath Dasgupta). (IISER Kolkata)
(All from IIT Kharagpur)

8. Nishant V Meshram 2015. Petrology and geochemistry of granites of the Bastar craton, Orissa.
9. Vivek Kumar 2016. Geochemistry and petrology of the Shyok Volcanics and Pangong Tso migmatite, Ladakh Transhimalaya.
10. Kuldeep Kumar 2016. Geochemistry and petrology of ultramafic cumulates in mafic NE-SW trending dyke swarm in Singhbhum craton
11. Rabishankar Hembram 2016. Petrography of the Chakradharpur granite and the Arkasani granite
12. Shivkant Rajwad 2016. Geochemistry of the Eastern Ghats Belt-Bastar craton contact deformation zone
13. Mohit Kedia 2016. Geochemistry of cherts of the Eastern Iron Ore Group in Singhbhum craton, Orissa
14. Abhishek Kumar 2016. Petrography and textures of Tso Moriri ultra high pressure retrograde P-T-t-d path

Research Projects, Collaborations and outreach

1. Participated in *four Indian Scientific Expeditions to Antarctica* (1991-92, 94-95, 96-97 and 2003-04). Many related aspects of petrological, isotopic and geochemical studies are still being carried out.
2. Visiting Scientist, 2001, Instrumentation centre, Micromass, Manchester.
3. Visiting Scientist, 2001, Isotope geology centre, Southampton Oceanographic Centre, Southampton, UK.
4. Visiting Scientist, 2006-2007, Institute of Geochronology, University of Brasilia, Brazil under **Indian National Science Academy (INSA)** Exchange Program.
5. Visiting Scientist, 2012, **Chinese Academy of Sciences** Collaborative work "On the stratigraphical subdivision and correlation of the early Precambrian of China and Asia"(No. 1212010611802) with the Geological Survey of China and **Chinese Academy of Geological Sciences-Beijing SHRIMP Center** for correlation between early Precambrian of the Indian, North China and Siberian cratons.
6. *Member, National Working Group* of International Geological Correlation Program Project-502 on Global correlation and timing of volcanic-hosted massive sulfide ore deposits.
7. *Co-Principal investigator*, DST Project on "Lode gold mineralization in the Southern Granulite Terrain" with IIT Roorkee (completed).
8. *Principal-investigator*, CSIR Project on "Constraining tectonic setting of the Paleoproterozoic Krishna Province metaigneous rocks: implications for the geodynamic history of the active Eastern Dharwar cratonic margin" (ongoing)
9. **Research Advisory Committee Member** of the DST-Birbal Sahni Institute of Paleosciences (BSIP), Lucknow
10. *Principal Investigator*, MoES Project on "Inferring Paleoproterozoic crustal evolution of the Bastar craton from granitoids and their supracrustal enclaves using geochemistry and U-Pb, Sm-Nd and Lu-Hf geochronology".

Publications:

Complete list of refereed publications – *papers till 2004 have focus on structural geology and metamorphic petrology whereas thereafter most of the work focuses on applications of geochronology and isotope geochemistry to geological problems*

1. Chatterjee, C., Ravikant, V., Kaptan, O.P. in press. Paleoproterozoic Cordilleran-style accretion along the southeastern margin of the Eastern Dharwar craton: evidence from the Vinjamuru arc terrane of the Krishna orogen, India. *Lithos*
2. Sahoo, A.K., Krishnamurthi, R., Ravikant, V., Pruseeth, K.L., Narayanan, M., Varghese, S., Pradeepkumar, T. 2015. Genetic aspects of gold mineralization in the Southern Granulite Terrain, India. *Ore Geology Reviews*; doi.org/10.1016/j.oregeorev.2015.07.019
