The Integrated Teacher Education Programme (ITEP) is a new addition to its ever-expanding vision of inclusive professional and need-based education. With close to 16000 students across UG, PG and PhD programmes, IIT Kharagpur is one of the most diversified institutions in the country. Further details regarding the institute can be found at <https://www.iitkgp.ac.in/>.

About the Programme

A first of its kind in the IIT system, the School of Education is established at IIT Kharagpur with the objective to offer the Integrated Teacher Education Programme (ITEP). The ITEP is a 4-year integrated programme under which the students will have a Dual Major undergraduate degree in a specific discipline along with B.Ed. Keeping in view the mandate of the National Education Policy (NEP) 2020 and subsequent initiatives by the National Council for Teacher Education (NCTE) (Ministry of Education, Government of India, New Delhi), the School of Education at this institute offers **B.Sc-B.Ed (Secondary Stage)** with Majors in four different disciplines, namely Physics, Chemistry, Mathematics and Economics. Apart from preparing teachers for the reconfigured school education system in the country, the ITEP will help impart disciplinary knowledge in the abovementioned subjects so that the students will gain in-depth knowledge. It would also ensure their admission to higher studies in the disciplinary streams, including higher professional education.

The ITEP at IIT Kharagpur is of 4-year duration across eight semesters of study. It is a Dual-Major Bachelor's Degree programme, with one Major in Education and the other in any of the following four disciplines: Physics, Chemistry, Mathematics and Economics. In addition, it intends to develop among student-teachers ethics of social engagement, and capacities such as problem-solving, critical and creative thinking, communication skills, ethical and moral reasoning, etc.

The students joining this programme shall be specialized in the Secondary Stage of School Education, which will qualify them to become teachers at that stage. [The curriculum and detailed syllabi can be accessed by visiting https://www.iitkgp.ac.in/](https://www.iitkgp.ac.in/), which will be available shortly.

The B.Sc-B.Ed programme is credit-based and thus offers the flexibility to progress at one's own pace. A minimum level of performance is essential for satisfactory progress.

Admission to the Programme

Admission to the programme will be made through the National Common Entrance Test (NCET) conducted by the National Testing Agency (NTA). The results of the NCET will be used for admission.
